**MAYLÁN Skincare® to Present at the Health & Wellness Day
Hosted by Gilda's Club NYC.**

CHICAGO, IL – November 7, 2011 – MAYLÁN Skincare is proud to present and participate at the Health & Wellness Day on November 12, 2011 hosted by Gilda's Club NYC. Supporting organizations that beautify our communities and world is a core value of the company. “Our Philosophy is vitally important to everything that we are and do. We believe that everything we have is a blessing and it is important for us to not just support International Justice Mission, Nomi Network and Charity:Water with donations with every purchase, but to find and support other worthy charitable organizations,” said founder Winnie Chan.

Since opening, GCNYC has offered a place where men, women and children living with cancer – and their families and friends – can join together to build social and emotional support as a supplement to medical care. The Health and Wellness Day was created to bring in counselors and industry experts to provide information and consultations for its members to improve their health and lifestyles. “We love the mission of MAYLÁN Skincare and think it’s great that they want to provide a natural product while making a social impact in communities” added event organizer Lydia Lambright.

To experience MAYLÁN, please visit us on the web at any of the following:

About MAYLÁN

MAYLÁN Skincare® is a registered trademark of Amedico Laboratories, LLC, a family owned and operated company. Developed by Dr. Chan for his wife, Winnie's sensitive skin, MAYLÁN Skincare strives to restore the natural beauty of all women that struggle to achieve perfect harmony with their skin. www.maylanskincare.com

About Amedico Laboratories

Amedico Laboratories, LLC was founded in 1987 by phytochemist and pharmaceutical scientist Dr. Henry Chan and his wife Winnie to capitalize on Dr. Chan's twenty-plus years of over-the-counter drug research and development experience and expertise to create OTC drug products. Amedico's first skincare product was developed in response to Winnie's sensitive skin's reaction to other popular skincare products. Amedico then began to develop high-end skincare products for consumers with sensitive skin under the Winifred Skincare label. Today, with help from their children Alan and Brian, Dr. Chan and Winnie have re-launched Amedico Laboratories' Winifred Skincare as MAYLÁN Skincare.

About Gilda's Club

Gilda's Club New York City was named for Gilda Radner, the brilliant comedian and one of the original cast members of Saturday Night Live. Gilda was diagnosed with ovarian cancer in 1986. She learned to live with cancer with help from a support community she joined in California, where she felt she could express what she was really feeling—an experience she described in her autobiography, *It's Always Something*. It was her dream that anyone touched by cancer would be able to receive the kind of emotional and social support that she had found. Following her death in 1989, Gilda's husband, Gene Wilder and her cancer psychotherapist, Joanna Bull started the Gilda's Club movement. In June, 1995 GCNYC opened its signature red door – Gilda's legacy to everyone living with cancer.
